Thames Valley Cancer Network **NHS**

Aria e-prescribing A13 guide

How to check if a regimen or support regimen is on Aria and how it is set up

When logged into TVCN location this will show all the regimens which have ever been added to Aria (approved and in testing) **including those which are not-commissioned and therefore not to be used.** The non-commissioned regimens (except some with local funding agreements) are not visible in Trust locations.
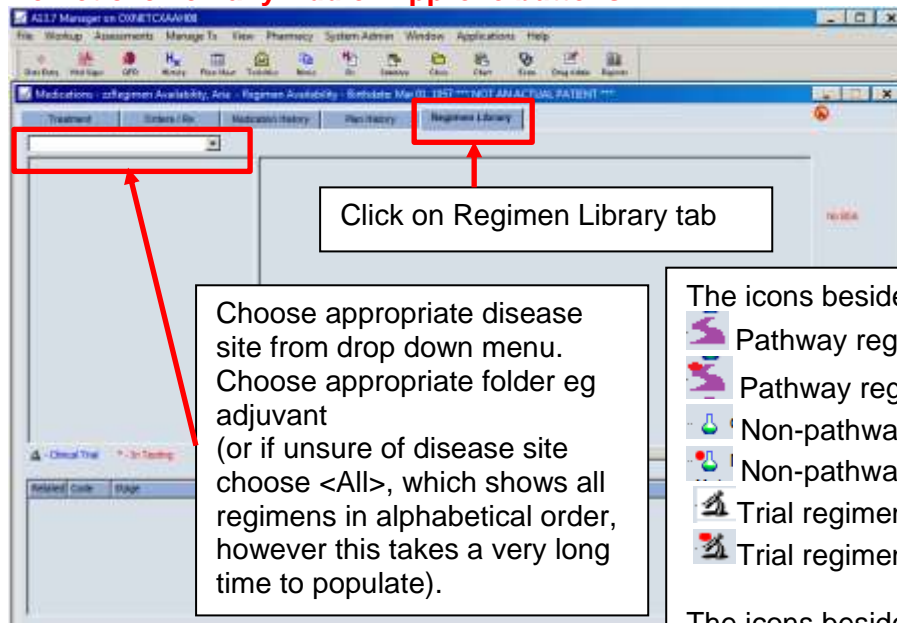

To check if a regimen is on Aria, and how it is set up: Log into TVCN location in Manager
To check if a regimen on Aria is visible in a specific Trust location: Log into the location you wish to check in Manager
Open dummy patient: zzRegimen Availability, Aria

To check if a regimen is on Aria
Do not click on any Add or Approve buttons.

Click on Regimen Library tab

Choose appropriate disease site from drop down menu. Choose appropriate folder eg adjuvant
(or if unsure of disease site choose <All>, which shows all regimens in alphabetical order, however this takes a very long time to populate).
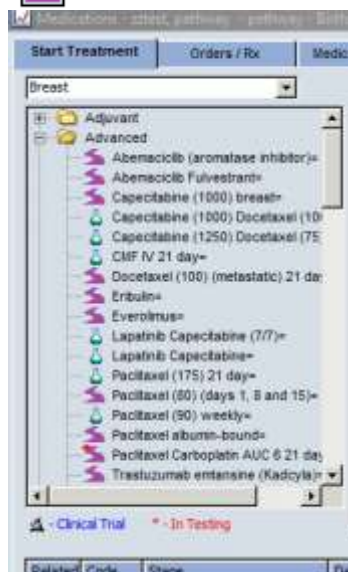

The icons beside the regimen name show:
 Pathway regimen (funded) – approved
 Pathway regimen (funded) – in testing
 Non-pathway regimen (unfunded) – approved
 Non-pathway regimen (unfunded) - in testing
 Trial regimen - approved
 Trial regimen - in testing
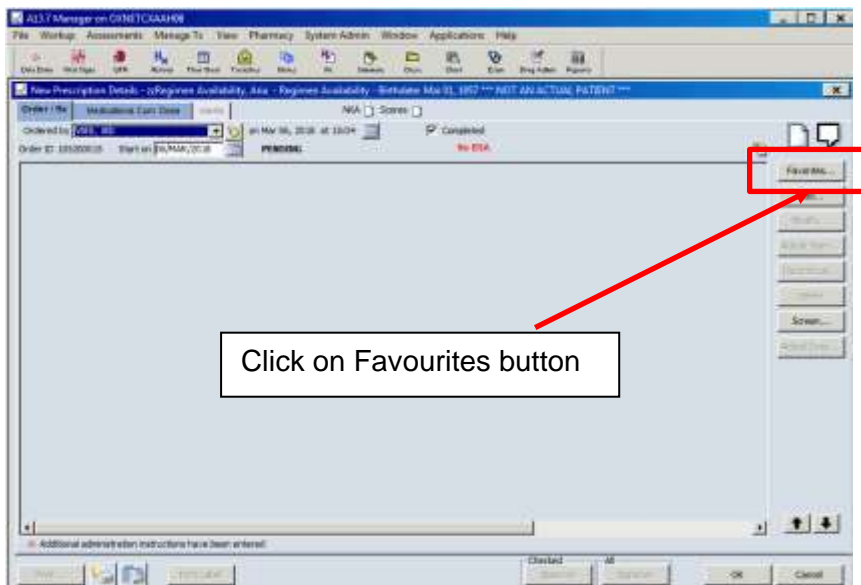

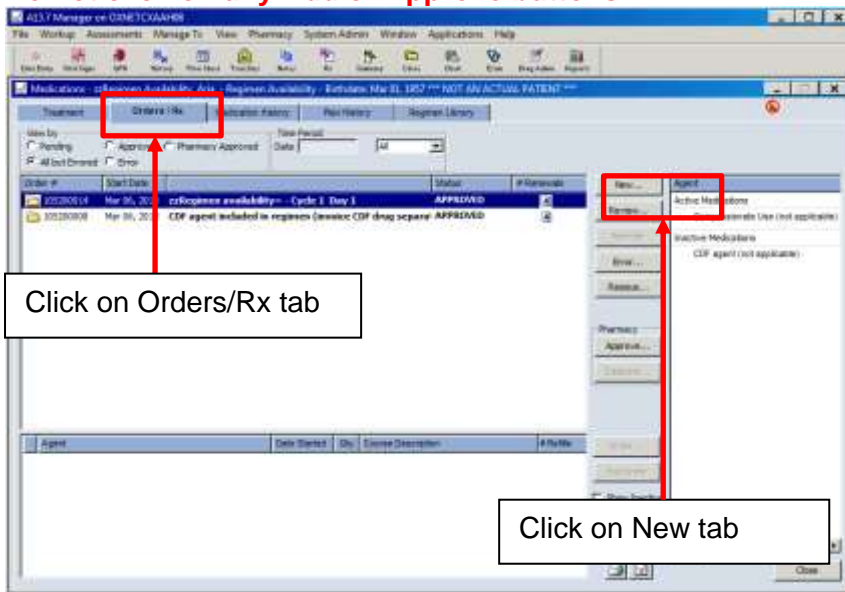

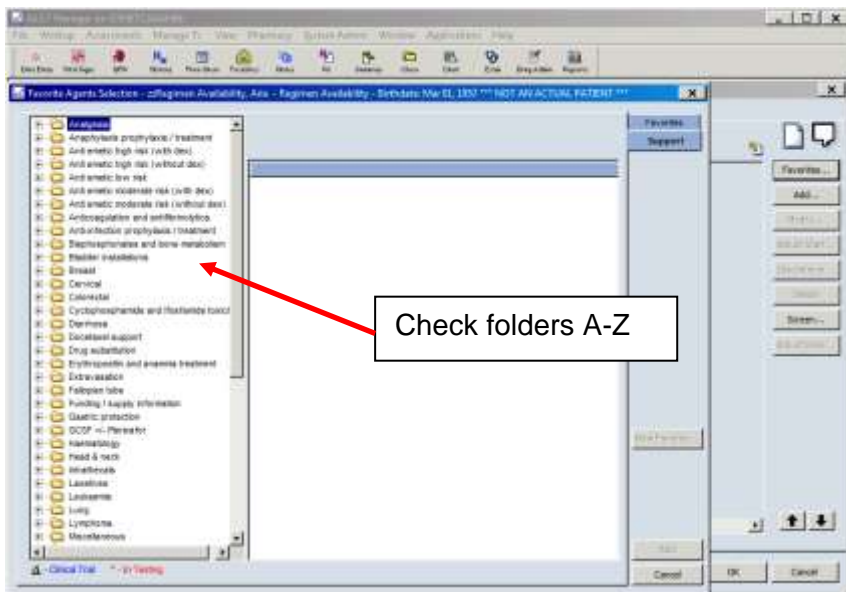

The icons beside the support regimen name show:
 Support regimen (funded or unfunded) – approved
 Support regimen (funded or unfunded) - in testing
 Trial regimen - approved
 Trial regimen - in testing

The regimens on a pathway (ie funded) have a

Always check http://tvscn.nhs.uk/networks/cancer/cancer-topics/chemotherapy/
to ensure most recent version is being used.
